

### Santrev and FarmMark will be joining forces

We are very pleased to announce that effective July 2020, Santrev and Farmmark will be joining forces.

This is a very exciting opportunity for both companies, for our employees and our clients.

Increasingly, Australian poultry and pig growers have been looking for a greater level of accountability and professionalism from industry service providers and bringing these two companies together will provide that service.

The new company will provide full turnkey ability under one roof with enhanced industry experience and expertise. The merged business will create a more comprehensive infrastructure with faster response times for clients across the country and provide a true 'one-stop-shop' for experienced growers and new growers alike.

Complete services provided by the new entity will include.

- Design and consultation service.
- Full project management function.
- Build programs providing competitive pricing and guaranteed completion times.
- Internal equipment with multiple equipment options.
- Electrical services and equipment.
- Commissioning and training support.

This is a marriage of two highly compatible firms who have worked together for twenty years and both companies firmly believe that the customer should always come first. We hold similar values and philosophies on doing business: producing an excellent job that provides a high performance and quality outcome, an emphasis on honesty and integrity, and the importance of bringing a positive attitude to work.

FarmMark Director, Luigi Di Clemente said *"It is important to build a strong and trustworthy relationship with our clients and we stand behind all our products with spare parts and warranties. We will continue to offer the best ongoing service and training to help achieve the best results"*.

We will continue to build and own farms for ourselves that give us the insight into the industry that makes us better at what we do every day and provide a greater opportunity to our clients to be more successful in this competitive world.

Though we will now operate under one company umbrella, day to day operation will continue as normal and Santrev and Farmmark will continue in their current states so ordering and invoicing will be as normal.

You will still be dealing with the same people and you can depend on the same quality of work and service.

Please join us as we look forward to an exciting and prosperous future for our employees, our project partners, and our clients.

Luke Trevanion and Luigi Di Clemente
